

REMARKS

Claims 54-56 and 76-92 are pending in the present application. In the Office Action dated May 22, 2003, the Examiner rejected claims 54-56, 76, 78-83, 85, 86, and 88-92 under 35 U.S.C. § 103 as unpatentable over U.S. Patent No. 5,552,341 to Lee ("Lee") in view of U.S. Patent No. 6,190,837 B1 to Jung, *et al.* ("Jung"). The Examiner objected to claims 77, 84 and 87 as being dependent on a rejected base claim, but indicated that the claims would be allowable if rewritten in independent form, including all of the limitations in the base claim and any intervening claims.

The Examiner is thanked for his indication of allowable subject matter in the present application. Accordingly, in order to expedite the issuance of allowable subject matter, applicant has amended claims to conform to the Examiner's indication of allowable subject matter. It is understood, however, that applicant does not agree with the Examiner's rejections based on the cited prior art, and is amending the claims solely to expedite the issuance of claims. Applicant therefore reserves the right to include any of the claims as originally presented in any continuation, divisional or continuation-in-part application.

Claim 54 has been amended to include the limitations of dependent claims 55 and 77. Amended claim 54 is therefore now in allowable form. Claims depending from claim 54 are also allowable based upon the allowability of the base claim and further in view of the additional limitations in the dependent claims. Claims 55 and 77 are cancelled.

Claim 83 has been amended to include the limitations of claim 84. Amended claim 83 is therefore also in allowable form. Claims depending from amended claim 83 are also allowable based upon the allowable form of the base claim and further in view of the additional limitations in the dependent claims. Claim 84 is cancelled.

Claims 93-99 are new. Claim 93 is former claim 83 that includes the limitations of dependent claims 84 and 87. Claim 93 is therefore allowable. Claims 94-99 are dependent claims 85-86 and 88-92.

All of the claims remaining in the application are now clearly allowable.
Favorable consideration and a Notice of Allowance are earnestly solicited.

Respectfully submitted,

DORSEY & WHITNEY LLP
